

March 27th, 2020

Good evening,

Firstly, I apologize that I am sending this from my email instead of the usual sandycove@parkbridge.com email due to technical difficulties and I wanted to get this to you before the weekend.

I hope the sunshine was brightly peaking in your windows today for a much needed smile. I am wishing everyone and their families are safe and healthy during this difficult time.

I wanted to continue to communicate with you on the following so you are kept informed.

1. Our office remains closed but we are still answering phone calls, messages, emails and inquiries. My team remains committed to maintaining a safe community and we are still here to check on the health and safety of the community and essential services we provide. Thank you for your patience during this time.
2. If you would like to drop off any communication to us, please use the mailbox located to the left of the front office doors which is a secured box under 24/7 cameras.
3. Until further notice, all clubhouses, fitness room, libraries and woods hop remain closed for your safety. The laundry rooms remain open.
4. [Sandycove Newsletter- April 2020](#)
[Due to the virus situation, the April Newsletter could not be printed and collated at the Wheel and was therefore, sent to an outside printer. For those residents with email addresses, the newsletter is attached \(just CLICK HERE\)](#) Printed copies will be available by end of day Monday in the newsletter boxes. If you don't need a printed copy, please leave them for those who do not have a computer. Please also let me know if receiving this newsletter digitally every month is of interest in an effort to reduce our environmental impact.

5. Did you know that you can check when your garbage and recycling schedule is online? Click on the below link to take you to the County Waste Calendar for future reference.
<https://www.simcoe.ca/SolidWasteManagement/Pages/schedules.aspx>

6. Garbage and Organic Pickup- below is a note from the County website for your information regarding bagging green bin materials.

The following safety measures for curbside collection have been put into effect to ensure the wellbeing of our waste collection operators and limit the spread of COVID-19:

- All green bin organic materials must be bagged, sealed and placed inside green bins. Compostable bags are preferred; however, plastic bags* are being accepted on a temporary basis to assist residents with this change
- All garbage must be bagged and sealed properly

- Residential units may place out diapers in clear, sealed bags on their garbage day without additional bag tags
- Exercise physical distancing with collection operators

*Note the County's contracted organics processor is temporarily accepting plastic bags and will continue to separate and divert organic materials in support of the environment. All plastic bags (clear, grocery, garbage) will be accepted but must be sealed and placed inside green bins.

Service Simcoe will continue to be operational for Phone or Email service, service@simcoe.ca or 800-263-3199.

7. Starting Monday March 30th we will be conducting community wellness checks on our residents by phone. If you have personal concerns about a neighbour and would like us to check up on, please email us here and we will ensure we will. Please note that the phone display will not be showing as Sandycove Acres as these calls will be done from home by my team.

Apologies for the long email.

Thank you for your continued cooperation, support, patience and humour during this time. We will get through this together.

Be kind to each other.

Regards,

Mirka Rollason
