

## RE: NEW GARBAGE, RECYCLE AND COMPOST BINS

Good afternoon SandyCove Acres,

The new bins have begun to arrive within our community. The Town of Innisfil intends to have all bins delivered by November 1<sup>st</sup> and will likely be finishing our community early next week. We understand your comments and concerns, however Parkbridge does not have authority to change, remove or opt out of this mandate, and we ask for your cooperation.

**After collection has begun using the new bins**, current bins can be taken to the Bradford Waste Facility located at 2960 Line 12, Bradford, open 8:30am – 4pm Monday to Saturday, closed on Sundays. Where possible we encourage collaboration and the continued support of one another to assist with delivering bins to the waste facility. Those on Facebook may have already seen the outpour of Alcona residents looking to repurpose recycle bins.

In communication with Simcoe Waste Collection, we have confirmed that neighbors can work together to combine garbage in support of one another. Encouraging creative ways to use the road space will also be a

learning opportunity, we suggest using the roadway in front of grassed areas to place bins and ensure driveways and roadways are kept accessible, especially during winter snow removal.

We appreciate your patience as we navigate this new change and will continue to assist in any way possible.

Please direct questions and concerns to our Innisfil Council.
