

Hello Sandycovers,

Construction is about to start again on Lockhart Road. Starting October 18th until November 12th (weather pending). Attached is the Town of Innisfil notice. This will be a very large disruption that will hopefully be the last (for a few years at least). If you have any further questions, please feel free to ask the Township of Innisfil's customer service department.

Hydrant flushing will start October 5th and go until November 12th. Between October 25th and October 29th, we will be flushing all the south side fire hydrants. Between November 1st and November 5th, we will flush the north side hydrants. Please be prepared for brown water during these times. If experiencing brown water, run the taps until clear water returns.

Thank you for your patience.
